RE: Service to WAPA and its members

Dear Rick,

I would like to thank you for the insurance articles that I have been receiving from you via email. The articles are both interesting, as well as informative.

There is so much to be known regarding insurance. The average business person would never think of asking the questions that may be necessary to insure adequate insurance coverage, and may not even understand it, once informed. Your articles bring light to many unanswered questions, not to mention learning about new coverage(s) never even imaged.

Throughout the many years that you have been helping the Worldwide Aircraft Propeller Association to get group insurance, you have been most helpful. It is great to know that you are continuing to help our association.

I hope that others find your articles as informative as we at Ameritech Industries, Inc. do.

Sincerely yours,

AMERITECH INDUSTRIES, INC,
