Dear Rick:

Thank you for guiding us through the process of switching our Hangar Keepers and Product Completion Liability policy to AAIRRG. Your knowledge and assistance made it much easier than we anticipated. We so enjoyed meeting you and Cam at NBAA in Las Vegas.

EASW is very pleased with the insurance product you provide. Furthermore, the enhancement to our bottom line this first year was substantial. Next year and beyond will add even more profits, due to additional savings under your program. In this economy, we are happy to have found a way to reduce our cost of insurance and at the same time improve the level of coverage for our clientele.

Please feel free to contact us as a reference.

With deep appreciation,

Edward F. Waske, Jr.  
C.O.O./Accountable Manager
